No specific hazardous decomposition products have been identified. It is recommended to presume that during a fire, irritating and possibly toxic gases may be generated by partial thermal decomposition or combustion, including oxides of carbon, nitrogen, and/or sulfur, as well as smoke and fumes.

6. ACCIDENTAL RELEASE MEASURES

6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT, AND EMERGENCY PROCEDURES:

Using appropriate personal protective equipment specified in Section 8 - Exposure Control/Personal Protection, absorb any spilled material and place in a container for disposal. Disposal methods should be consistent with information in Section 13 - Disposal Considerations.

6.2 ENVIRONMENTAL PRECAUTIONS:

Keep spill away from drains, sewers, and bodies of water.

6.3 METHODS AND MATERIAL FOR CONTAINMENT AND CLEANUP:

Using safe handling precautions established elsewhere in this Safety Data Sheet, attempt to control the spill at its source if safe to do so. Control the release of material to prevent contamination of soil or bodies of water. Cover spilled liquid material with a suitable absorbent and collect in a suitable container for disposal. Sweep up any spilled dry or dried material or absorbent and collect for disposal. Clean area with detergent, absorb wash water with absorbents, and collect in a suitable container for disposal.
