- If swallowed: Rinse mouth. DO NOT INDUCE VOMITING unless directed by a medical professional. Seek medical attention if unwell.

### DIRECTIONS FOR USE

Apply only as directed during the growing season.

Use Contec DG Dispersing Granule Technology 0-0-25 for greens, tees and other fine turf areas where a potassium fertilization is desired or when manganese and magnesium are needed to help correct or prevent deficiencies during the growing season.

Watering in this product will disperse each granule into thousands of particles. This will facilitate the movement of the nutrients into the soil. This particle dispersion will also greatly reduce ball, shoe and mower pickup - minimizing nutrient loss. Cold weather and/or cold water (lower than 45° F/ 7° C) can result in slower particle dispersion.

Application to wet, close-cut golf turf may result in foliar staining, which will discolor the turf to a brown/black appearance. This will occur even if immediate irrigation or rainfall occurs. Be sure to apply this product to dry turf only.

### Application Rates:

LIGHT:	2.0 lbs/1,000 sq. ft.
LOW:	3.0 lbs/1,000 sq. ft.
MEDIUM:	4.0 lbs/1,000 sq. ft.
HIGH:	5.0 lbs/1,000 sq. ft.

### For all applications:

Immediately after application, apply a minimum of 0.2 inches of water to disperse particles into the root zone. Due to variations in temperature and water pH, best results are achieved by splitting the irrigation into 2 applications at 10 - 15 minutes apart. This will allow for more thorough particle dispersion into the root zone.

Particle color may vary from lot to lot.

Apply only to actively growing turf. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

### Storage and Use:

- Store in a clean, dry place.
- Reseal open bag by folding top down and securing.
- Use only clean, dry spreaders.
- Do not leave unused product in spreaders.
